TRANSACTIONS

OF THE

American Society of Civil Engineers.

INDEX.

VOLUME XXXV.

JULY, 1896.

NOTE.—In this Index, Subjects and Writers are given Alphabetically. Titles of Papers are enclosed by quotation marks when indexed alone or under the Author's name. When indexed under the name of a person discussing a paper, the titles are not so enclosed. Titles of Papers are entered with reference to the subject and also under the first significant word.

INDEX.

VOLUME XXXV.

JULY, 1896.

ACCOUNTING ON ENGINEERING WORKS.
W. W. Follett, 104, 121; Foster Crowell, 116; George R. Hardy, 117.

"ADDRESS AT THE ANNUAL CONVENTION AT SAN FRANcisco, Cal., June 30th, 1896." Thomas Curtis Clarke, 508.

ARCHES.
Strength of Hollow Tile Floor— Geo. A. Just, 129; J. R. Worcester, 130; Fr. von Emperger, 133; George Hill, 136.

ASPHALT.
—for Reservoir Linings. R. B. Stanton, 73, 78, 99; H. D. Bush, 87; Rudolph Hering, 89; J. C. Trautwine, Jr., 93.
Tempering— E. P. North, 85; S. Whinery, 86.

BABCOCK, W. J. Construction of Barges, 36.

"BANK REVETMENT ON THE LOWER MISSISSIPPI." (With Discussion.) H. St. L. Coppée, 141.

BEAMS.
"Transverse Strength of— As a Direct Function of Tensile and Crushing Stresses of Material." M. Lewinson. (With Discussion.) 484.

BELKNAP, W. E. Transverse Strength of Beams, 499.

BERG, WALTER G.
Foundations for Heavy Buildings in New York, 470.
Strength of Pillars, 411.

BREITHAUPT, W. H. Transverse Strength of Beams, 493.

BRIDGES.
Memphis. Mattress Work at Piers. Alfred Noble, 230.

BRINCKERHOFF, H. W. Transverse Strength of Beams, 493.

BUILDINGS.
"Concerning Foundations for Heavy Buildings in New York City." Charles Sooysmith. (With Discussion.) 459.

BUSH, H. D. Asphalt Reservoir Lining, 87.

BUTLER, M. J. Tests of Fire-Proof Flooring Material, 130.

CANALS.
Cost of Operating Boats on— See *Effect of Depth upon Artificial Waterways.*
Electrical Towage on— Richard Lamb, 29.
Traffic on Erie, St. Mary's Falls and Suez— Edward P. North, 13.

CARTWRIGHT, ROBERT. Laying Wrought-Iron Pipe, 87.

CLARKE, THOMAS C.
"Address at the Annual Convention at San Francisco, Cal., June 30th, 1896," 508.
"Effect of Depth upon Artificial Waterways." (With Discussion.) 1, 38.

COLLINGWOOD, F. Foundations for Heavy Buildings in New York, 477.

COLUMNS. See *Pillars.*

"CONCERNING FOUNDATIONS FOR HEAVY BUILDINGS IN New York City." Charles Sooysmith, 459.
Discussion: Peter C. Hains, 469; W. G. Berg, 470; Charles Macdonald, 471; George B. Post, 471; Theodore Cooper, 472; C. T. Purdy, 475.
Correspondence: F. Collingwood, 477; George Hill, 477; Foster Crowell, 479; T. Kennard Thomson, 480; R. L. Harris, 482; Randell Hunt, 482.

CONSTABLE, HOWARD. Tests of Fire-Proof Flooring Material, 125.

CONTRACT AND DAY LABOR SYSTEMS COMPARED.
Henry Goldmark, 115; Foster Crowell, 116; George R. Hardy, 117; William B. Landreth, 118; G. T. Nelles, 120; W. W. Follett, 123.

COOPER, THEODORE. Foundations for Heavy Buildings in New York, 472.

COPPÉE, H. ST. L.
"Bank Revetment on the Lower Mississippi," 141.
Discharge of the Mississippi River, 319.

"COST OF SEWER CONSTRUCTION, DENVER, COLO." W. W. Follett, 102.
Discussion: Henry Goldmark, 115; Foster Crowell, 116; George R. Hardy, 117.
Correspondence: William B. Landreth, 118; Andrew Rosewater, 119; L. J. Le Conte, 119; G. T. Nelles, 120; W. W. Follett, 121.

CROWELL, FOSTER.
Cost of Contract and Day-Labor Work Compared, 116.
Discharge of the Mississippi River, 307.
Foundations for Heavy Buildings in New York, 479.

CUMMINGS, ROBERT A.
Asphalt Bottom for Dry Dock, 97.
High-Speed Filter, 62.

DABNEY, T. G. Discharge of the Mississippi River, 308.

DAMS.
"Suggestions for a New Method of Dam Building." (With Discussion.) Robert Brewster Stanton, 70.
Rock-Fill— R. B. Stanton, 70, 97; S. Whinery, 86; L. J. Le Conte, 94; A. P. Davis, 96.

DAVIS, A. P. New Method of Building Dams, 96.

DENVER, COLO.
"Cost of Sewer Construction in—" W. W. Follett, 102.

"DISCHARGE OF THE MISSISSIPPI RIVER."
Correspondence on Paper No. 765: F. P. Spalding, 305; Foster Crowell, 307; T. G. Dabney, 308; B. M. Harrod, 310; W. G. Price, 314; Charles H. Miller, 316; H. St. L. Coppée, 319; J. B. Johnson, 321; Arthur Hider, 323; C. McD. Townsend, 336; William Starling, 358.

DU BOIS, A. J. Transverse Strength of Beams, 496.

DUTTON, CHAUNCEY N. Cost of Operating Vessels on Inland Water-Ways, 19.

"EFFECT OF DEPTH UPON ARTIFICIAL WATERWAYS."
Thomas C. Clarke, 1.
Discussion: Edward P. North, 6; Chauncey N. Dutton, 19.
Correspondence: Richard Lamb, 29; L. C. Sabin, 31; L. J. Le Conte, 35; Lewis M. Haupt, 35; W. J. Babcock, 36; Thomas T. Johnston, 37; T. C. Clarke, 38.

EIDLITZ, LEOPOLD. "The Strength of Pillars.—An Analysis." (With Discussion.) 372, 422.

ELECTRICITY.
"The Twenty-eighth Street Central Station of the United Electric Light and Power Company." H. W. York. (With Discussion.) 429.

EMERY, CHARLES E.
Central Electric Station Construction, 451.
Transverse Strength of Beams, 494.

EMPERGER, FR. VON. Tests of Fire-Proof Flooring Material, 133.

FASCINES FOR BANK PROTECTION. See *Bank Revetment on the Lower Mississippi.*

FILTRATION OF WATER.
"A High-Speed Gravity Filter Bed." (With Discussion.) A. McL. Hawks, 41.
At Tacoma, Wash. See *High-Speed Gravity Filter Bed.*
Experiments at St. Louis. S. Bent Russell, 55.
Mechanical Filters. E. B. Weston, 57; R. A. Cummings, 62.
Effect of— on death rate. J. W. Hill, 58.

FIRE-PROOF CONSTRUCTION.
Strength of— Howard Constable, 125; Oscar Lowinson, 128; George A. Just, 129; J. R. Worcester, 130; Fr. von Emperger, 133; George Hill, 136.

FITZGERALD, DESMOND. "Flow of Water in 48-In. Pipes." (With Discussion.) 241, 301.

FLOORS.
Tests of Fire-Proof Flooring Material. Discussion on Paper No. 769, 125.

"FLOW OF WATER IN 48-IN. PIPES." Desmond FitzGerald, 241.
Discussion: E. Sherman Gould, 276.
Correspondence: Rudolph Hering, 280; L. J. Le Conte, 284; A. McL. Hawks, 284; Edmund B. Weston, 285; George W. Rafter, 291; Clemens Herschel, 296; Desmond FitzGerald, 301.

FOLLETT, W. W. "Cost of Sewer Construction at Denver, Colo." (With Discussion.) 102, 121.

FORMULAS. Flow of Water in Pipes. Desmond FitzGerald, 256, 301; E. Sherman Gould, 276; Rudolph Hering, 280; E. B. Weston, 285; Clemens Herschel, 298.
See *Strength of Pillars*, and *Transverse Strength of Beams.*

FORTIN, S. J. Transverse Strength of Beams, 495.

FOUNDATIONS.
"— for Heavy Buildings in New York City." Charles Sooysmith. (With Discussion.) 459.

FRANKFORT, GERMANY.
River Traffic at— E. P. North, 14.

FREIGHT RATES.
In Great Britain and the United States. E. P. North, 9.

GOLDMARK, HENRY. Cost of Denver Sewers, 115.

GOULD, E. SHERMAN. Flow of Water in 48-In. Pipes, 276.

HAINS, PETER C. Foundations for Heavy Buildings in New York City, 469.

HARDY, GEORGE R.
Comparison of Electricity and Steam Locomotives for Railway Service, 453.
Cost of Denver Sewers, 117.

HARRIS, R. L. Foundations for Heavy Buildings in New York, 482.

HARROD, B. M. Discharge of the Mississippi River, 310.

HAUPT, LEWIS M. Artificial Waterways, 35.

HAWKS, A. McL.
Flow of Water in 48-In. Pipes, 284.
"High-Speed Gravity Filter Bed." (With Discussion.) 41, 67.

HAZEN, ALLEN. High-Speed Filter, 60.

HENRY, P. W. Asphalt Concrete, 85.

HERING, RUDOLPH.
Asphalt for Reservoir Linings, 89.
Flow of Water in Pipes, 280.
Typhoid Fever and Water Supply, 54.

HERSCHEL, CLEMENS. Flow of Water in Pipes, 296.

HIDER, ARTHUR. Discharge of the Mississippi River, 323.

"HIGH-SPEED GRAVITY FILTER BED." A. McL. Hawks, 41.
Discussion: Rudolph Hering, 54.
Correspondence: S. Bent Russell, 55; Edmund B. Weston, 57; John W. Hill, 58; Allen Hazen, 60; Robert A. Cummings, 62: A. McL. Hawks, 67.

HILL, GEORGE.
Foundations for Heavy Buildings in New York, 477.
Tests of Fire-Proof Flooring Material, 136.

HILL, JOHN W. Water Supply and Typhoid Fever, 58.

HUNT, RANDELL. Foundations for Heavy Buildings in New York, 482.

HYDRAULICS.
"Flow of Water in 48-In. Pipes." Desmond FitzGerald. (With Discussion.) 241.
"The Discharge of the Mississippi River." Correspondence on Paper No. 765, 305.

JOHNSON, J. B.
Discharge of the Mississippi River, 321.
Transverse Strength of Beams, 504.

JOHNSTON, THOMAS T. Reasons for a Ship Canal from the Great Lakes to the Sea, 37.

JUST, GEORGE A. Tests of Fire-Proof Flooring Material, 129.

LABOR.
Comparative Advantage of Day and Contract— Henry Goldmark, 115; Foster Crowell, 116; George R. Hardy, 117; Andrew Rosewater, 119; L. J. Le Conte, 119; G. T. Nelles, 120; W. W. Follett, 122.

LAMB, RICHARD. Artificial Waterways, 29.

LANDRETH, WILLIAM B. Cost of Denver Sewers, 118.

LE CONTE, L. J.
Artificial Waterways, 35.
Cost of Denver Sewers, 119.
Flow of Water in Pipes, 284.
New Method of Building Dams, 94.

LESLEY, R. W. Tests of Fire-Proof Flooring Material, 127.

LEVEES ALONG THE MISSISSIPPI. C. McD. Townsend, 340.

LEWINSON, M. "Transverse Strength of Beams as a Direct Function of the Tensile and Crushing Stresses of Material." (With Discussion.) 484.

LOWINSON, OSCAR. Tests of Fire-Proof Flooring Material, 128.

MACDONALD, CHARLES. Foundations for Heavy Buildings in New York City, 471.

MARSTRAND, O. J. Transverse Strength of Beams, 492.

MATTRESSES FOR BANK PROTECTION. See *Bank Revetment on the Lower Mississippi.*

METERS.
Current— Rating. F. P. Spalding, 305; W. G. Price, 314; Arthur Hider, 323.

MILLER, CHARLES H. Discharge Observations on the Mississippi River, 316.

MISSISSIPPI RIVER.
Bank Revetment on the Lower Mississippi. H. St. L. Coppée, 141.
Discharge of the Mississippi River. Correspondence on Paper No. 765, 304.
Improvement of the Upper Mississippi. E. E. Russell Tratman, 223.

MORISON, GEORGE S. The Strength of Pillars, 418.

NELLES, G. T. Cost of Denver Sewers, 120.

NORTH, EDWARD P.
Importance of Good Artificial Waterways, 6.
New Method of Building Dams, 85.

"NOTES UPON THE CONSTRUCTION OF A WATER SYSTEM for Placer Mining, and Suggestions for a New Method of Dam Building." Robert Brewster Stanton, 70.
Discussion: P. W. Henry, 85; Edward P. North, 85; Samuel Whinery, 86; Robert Cartwright, 87; H. D. Bush, 87; Rudolph Hering, 89; John C. Trautwine, Jr., 91.
Correspondence: L. J. Le Conte, 94; A. P. Davis, 96; Robert A. Cummings, 97; Robert Brewster Stanton, 97.

PIEZOMETERS.
Desmond FitzGerald, 247, 303; Clemens Herschel, 300.
PILLARS.
"The Strength of Pillars.—An Analysis." Leopold Eidlitz. (With Discussion.) 371.
PIPES.
Laying Wrought-Iron— R. B. Stanton, 76; Robert Cartwright, 87.
"Flow of Water in 48-In.—" Desmond FitzGerald. (With Discussion.) 241.
Tuberculation in— Desmond FitzGerald, 242; L. J. Le Conte, 284; A. McL. Hawks, 284.
Coating for Water— G. W. Rafter, 291.
POST, GEORGE B. Foundations for Heavy Buildings in New York, 471.
PRICE, W. G.
Bank Revetment on the Mississippi River, 228.
Use of Current Meters, 314.
PRICHARD, HENRY S.
Strength of Pillars, 415.
Transverse Strength of Beams, 500.
PURDY, C. T. Foundations for Heavy Buildings in New York, 475.
RAFTER, GEORGE W. Flow of Water in Pipes, 291.
REVETMENT, BANK.
On the Mississippi River. (With Discussion.) H. St. L. Coppée, 141.
RIVERS.
Methods of Measuring Discharge of— See *Discharge of the Mississippi River.*
Revetment of Banks of— See *Bank Revetment on the Lower Mississippi.*
ROSEWATER, ANDREW. Cost of Denver Sewers, 119.
RUSSELL, S. BENT. High Speed Filter, 55.
SABIN, L. C. Artificial Waterways, 31.
"SCIENCE AND ENGINEERING." Thomas Curtis Clarke, 508.
SEWERS AND SEWERAGE.
"Cost of Sewer Construction, Denver, Colo." (With Discussion.) W. W. Follett, 102.
Overflow, Denver. W. W. Follett, 103.
Iron Centers for Sewers. W. W. Follett, 113.
SIPHON.
On Sudbury River Aqueduct. Desmond FitzGerald, 241.

SOOYSMITH, CHARLES. "Concerning Foundations for Heavy Buildings in New York City." (With Discussion.) 459.

SPALDING, F. B. Discharge of the Mississippi River, 305.

STANTON, ROBERT BREWSTER. "Notes upon the Construction of a Water System for Placer Mining, and Suggestions for a New Method of Dam Building. (With Discussion.) 70, 97.

STARLING, WILLIAM. Discharge of the Mississippi River, 358.

STEAMSHIPS.

Cost of Operating— On Great Lakes. T. C. Clarke, 3; C. N. Dutton, 21.

"STRENGTH OF PILLARS.—AN ANALYSIS." Leopold Eidlitz, 371.

Discussion: George H. Thomson, 411; Walter G. Berg, 411; Henry S. Prichard, 415.

Correspondence: George S. Morison, 418; Leopold Eidlitz, 422.

"TESTS OF FIRE-PROOF FLOORING MATERIAL."

Discussion on Paper No. 769: Howard Constable, 125; R. W. Lesley, 127; Calvin Tomkins, 128; Oscar Lowinson, 128; George A. Just, 129.

Correspondence: M. J. Butler, 130; J. R. Worcester, 130; Fr. von Emperger, 133; George Hill, 136.

THOMSON, GEORGE H. The Strength of Pillars, 411.

THOMSON, T. KENNARD. Foundations for Heavy Buildings in New York City, 480.

TOMKINS, CALVIN. Tests of Fire-Proof Flooring Material, 128.

TOWNSEND, C. McD. Discharge of the Mississippi River, 326.

TRANSPORTATION.

Cost of— On Canals and Lakes. See *Effect of Depth upon Artificial Waterways.*

Freight Rates and Ton Mileage on Railroads. Edward P. North, 7.

"TRANSVERSE STRENGTH OF BEAMS AS A DIRECT FUNCtion of the Tensile and Crushing Stresses of Material." M. Lewinson, 484.

Discussion: O. J. Marstrand, 492; H. W. Brinckerhoff, 493; W. H. Breithaupt, 493; Charles E. Emery, 494; Guy B. Waite, 494.

Correspondence: S. J. Fortin, 495; A. J. Du Bois, 496; Charles O. Brown, 498; W. E. Belknap, 499; Henry S. Prichard, 500; J. B. Johnson, 504; M. Lewinson, 506.

TRATMAN, E. E. RUSSELL.

Central Electric Station Construction, 455.

River Improvements, 223.

TRAUTWINE, JOHN C., Jr. New Method of Building Dams, 91.

"TWENTY-EIGHTH STREET CENTRAL STATION OF THE United Electric Light and Power Company." H. W. York, 429.
Discussion: Charles E. Emery, 451; George R. Hardy, 453; E. E. Russell Tratman, 455.
Correspondence: H. W. York, 457.

UNITED ELECTRIC LIGHT AND POWER COMPANY.
The Twenty-eighth Street Central Station. H. W. York. (With Discussion.) 429.

WAITE, GUY B. Transverse Strength of Beams, 494.

WATERWAYS.
"Effect of Depth upon Artificial Waterways." (With Discussion.) Thomas C. Clarke, 1.

WESTON, EDMUND B.
Flow of Water in Pipes, 285.
High-Speed Filter, 57.

WHINERY, SAMUEL. Asphalt for Reservoir Linings, 86.

WORCESTER, J. R. Tests of Fire-Proof Flooring Material, 130.

YORK, H. W. "The Twenty-eighth Street Central Station of the United Electric Light and Power Company." (With Discussion.) 429, 457.
